=====

THE FLYING FEZ Ararat Shrine Club is not a club just for pilots. It's a club that needs all the skills and abilities each Shriner possesses to help this club in it's endeavor to transport by air, crippled children and burn patients to the various hospitals of the Shrine for emergency care and treatment. Therefore, if you have any special talent, we should know about, or anything special you would like to do in the Flying Fez, please tell us: \_\_\_\_\_
